MARKET FEVERISH AND EXCITED

Disposition to Take Profits Had an Unsettling Influence.

MANIPULATION APPARENT

New York Central, Southern and Norfoll and Western Stocks Had Notable Advances-Bonds Have Been

NEW YORK, Nov. 23 .- Speculative ac tivity was very great in to-day's short session of the Stock Exchange, and manipulative devices were rreely used, manipulative devices were rreely used, both by the bulls and the bears. The consequence was a feverish and excited market. There was a notable accumulation of New York Central, Norfolk and Western and the Southern Railway stocks, individual transactions in these running from 1,600 to 5,800 shares. New York Central was lifted an extreme 24, Norfolk and Western 13, and Southern Railway preferred 12. There was a disposition to take profits

and Western 12 and Southern Ramay preferred 12.

There was a disposition to take profits in some of the recent favorites, which had an unsettling influence upon the market from the outset. Michigan Central jumped 2 points on the purchase of 100 shares. The Buffalo, Rochester and Pittsburg stecks, and Minneapolis, St. Paul and Sault Ste. Marie ross 2½ to 6%. Amalgamated Copper was weak throughout, with the exception of a slight fractional gain at the opening. In the late dealings the stock slumped to 83, which is a fraction below the lowest price ever previously toucled.

touched.

The assertion was published in the street that papers against the Amalgamated Company are being prepared in the Attorney General's office in Washington. The report effected a break of 3½ points in Sugar as well. This weakness took the place of a rally on the strong bank statement. Renewed selling developed at the last in Transcontinental stocks.

stocks.

The cash reserves of the banks increased about as foreshadowed, and the heavy loan contraction confirmed the belief that the gold exports of the week went to liquilate foreign loans. It is asserted that the break in exchange is partly due to renewed selling by bankers in the process of extending foreign loans still maturing, which amounts to the creation of a fresh supply of short accounts in exchange to be covered at later maturities.

The total sales of stocks for the day vere 597,700 shares. The railroad bond market has been more active during the week, and investment issues have shown a firm tone. Speculative bonds have been irregular. United States 3's registered, the old and new 4's and 5's acvanced 1½ per cent, over the closing call of last week. The refunding 2's declined ½ per cent.

MONEY AND EXCHANGE—Money on call nominal; prime mercantile paper 31-65 per cent. Sterling exchange weak with actual business in bankers' bills at \$4.574.64.574 for demand and at \$4.544.66 \$4.844 for sixty days; bosted ates, \$4.859 \$4.8845; commercial bills, \$4.834.64.84. Bar silver, 5646; Mexican dollars, 45. Government bonds, steady; State bonds, inactive; railroad bonds, dull.

The statement of the associated banks for the week ending to-day shows:
Loans, \$860,063 000; decrease, \$13,504,400. Deposits, \$932,937,500; decrease, \$13126,800. Circulation, \$31,972,400; decrease, \$10,200. Legal-tenders, \$70,550,800; decrease, \$515,400. Specie, \$17,175,000; increase, \$556,60. Reserves, \$247,726,390; increase, \$1,101,400. Reserve required, \$233,239,375; decrease, \$3,281,700. Surplus, \$14,486,925; increase, \$4,085,100.

COTTON MARKETS.

NEW YORK, Nov. 23.—The cotton market opened steady in tone with prices 165 points lower, a slim response to weak Liverpool cables and to predictions from the bear side for an increase in receipts, and immediately after the call the smaller helders sold out as a mere matter of precaution, while some of the bear leaders endeavored to shake out larger lines of cotton held by insiders and investors. But in contrast with the English market, news was bad weather and a bountiful supply of bullish domestic news.

Moderate to heavy rains over the Eastern and Central portions of the belt and unseasonably low emperatures in the West, were said to be delaying gathering of crops. January climbed to 7.63 after the call, but as a general thing the market did not vary much from the opening in the absence of active outside demand or of strong bull leadership. Private cables attributed the heaviness abroad to active profit-taking and pressure from the bear side. The market closed steady, prices net unchanged to 3 points lower.

LYNCHBURG TOBACCO MARKET. Danville, Va., Nov. 23, 1901. Owing to the continued ary weather receipts of tobacco in the Lynchburg ware-houses for several weeks have been very light. A gentle rain is falling to-day, and it is expected that this will bring an immense quantity of tobacco here within the next few days. Prices remain steady and the quality of the offerings is generally satisfactory. Quotations are as follows:

NORFOLK AND WESTERN BOOMS

An Attack on Amalgamated Copper Causes That Stock to Break, and the General Market Was Affected.

Traders in stocks were somewhat startled yesterday by the announcement from Washington that the Attorn'y-General was preparing papers against the Amalgamated Copper Company. This was taken to mean that the company would be attacked under the Sherman anti-trust law, and the stock broke sharply, affecting the general market. Up to that time the market had given many signs of strength and some stocks made new records, led by New York Central. Norfolk and Western was another favorite, and sold at 60 78. The Central. Norfolk and Western was another favorite, and sold at 60 7-8. The stock had never before sold as high as that. Southern Railway was also strong on the announcement that the Morgan interests were buying the stocks. It was further said that in addition to an increased dividend on the preferred stock another favorable development in respect to the company's interest was spect to the company's interest was shortly to be announced in the form of a reduction of the common stock by one-half, as the company is permittel to do under a recent act of the Virginia

York Times said:
According to gossip heard in the Street yesterday, the buying of C. & O. was in part by Vanderbilt brokers and in part by Pennsylvania interests. Beyond the fact that the company is earning a great deal of money and is to be in-cluded in the projected soft coal com-bination, there was no new development. THE BANK STATEMENT.

ments and early in the week it was ex pected that serious inroads in the gold reserve would be made. On the contrary, the bank statements showed that in spite of these immense experts of gold the banks gained over a million dollars in cash and contrary to all expectation the loans showed a decrease of \$13,504,-400. As a result the reserve fund increased \$4,383,100. When the bank state ment came out all the local traders in Richmond expected to see prices bound upward, but, on the contrary, the mar-ket sold off somewhat upon this statement. Most of the traders think, how-ever, that better prices will be seen next week.
